Sanford Ave. Project New Traffic Pattern

The original detour route for Sanford Ave. was Palmetto Ave. for southbound traffic and Cypress Ave. for northbound traffic.

After evaluating traffic patterns around this closure, we noticed that more northbound traffic were turning left at the hard closure at 7th and Sanford Ave. and then turning right on Palmetto Ave. to go north. This was creating a high volume of traffic on Palmetto Ave. that was already congested with the southbound detour traffic.

To help alleviate this problem the City has signed Palmetto Ave. as One Way Only from 3rd through 7th street.
